

Scottinez Libib collection guide

Introduction

This guide describes how to manage books in the Scottinez Libib collection.

You need the [Libib mobile app](#) to use this guide.

Add a new book

Add new books into Libib as you get them. You can do so in four ways:

- Search by barcode
- Search by ISBN 13 or ISBN 10.
- Search by title.
- Create a new book manually.

If one way fails, try another. See the following flowchart for reference.

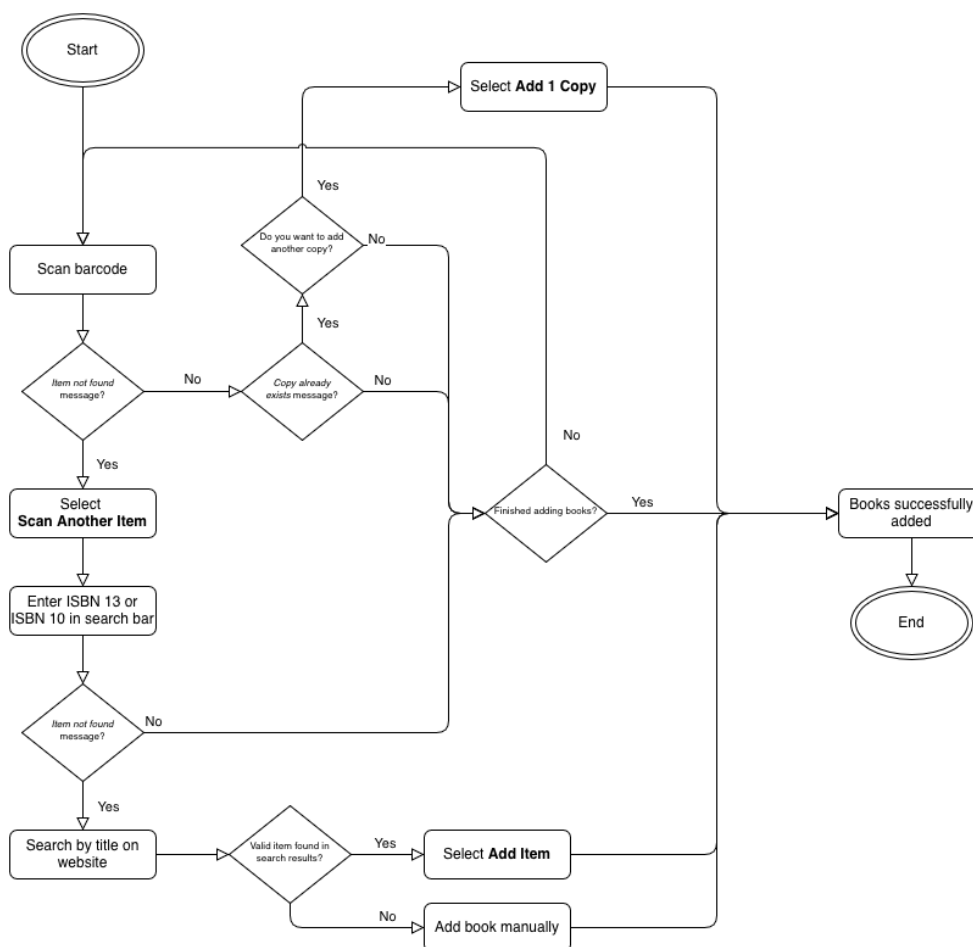

Figure 1. New book process flowchart

Search by barcode

Scanning the barcode is the easiest way to add a new book.

To add a book by its barcode:

1. Remove stickers or other obstructions from the barcode.
2. Open the Libib mobile app and select **Scottinez Books**.
3. Select  and then select **Barcode**.
4. Select **Book**.
5. Center the book's barcode on your screen using your phone's camera. Libib automatically captures the barcode. A confirmation message appears along the top of the screen.

Libib adds the book to the collection as soon as you scan the barcode. The total book count next to *Scottinez Books* won't update until you select **Done**.

6. Optionally, select **Add another** to add another book.
7. Select **Done** to finish scanning books.

The total book count next to *Scottinez Books* refreshes to show your new total.

Search by ISBN 13 or ISBN 10

Some books don't have a barcode or their barcode is invalid. If you can't find the book by its barcode, search for the book by its ISBN 13 or ISBN 10.

ISBN 13

The ISBN 13 is an identification number with 13 digits that starts with 978 or 979. Books printed after 2007 only have an ISBN 13.

ISBN 10

The ISBN 10 is an identification number with 10 digits that starts with 0 or 1. Books printed before 2007 have both an ISBN 10 and an ISBN 13, but may only show the ISBN 10.

To search for a book by its ISBN 13 or ISBN 10:

1. Find the ISBN 13 or ISBN 10 on the book's copyright page or near the barcode.
2. Open the Libib mobile app and select **Scottinez Books**.
3. Select  and then select **Barcode**.
4. Select **Book**.
5. Enter the ISBN 13 or ISBN 10 in the search bar along the top of the screen and then tap **return**. A green confirmation message appears along the top of the screen.

Libib adds the book to the collection as soon as you tap **return**. The total book count next to *Scottinez Books* won't update until you select **Done**.

6. Optionally, select **Add another** to add another book.
7. Select **Done** to finish adding books.

The total book count next to *Scottinez Books* refreshes to show your new total.

Search by title

If the book doesn't have a printed ISBN or the search doesn't return results, search for the book by its title.

You must use the website to search for a book by title.

1. Go to [Libib.com](https://libib.com) and log in to the *greagancatalog@protonmail.com* account.
2. In the sidebar menu, select **Add Items**.
3. Under *Select Item Type*, choose **Book**.
4. Enter the book's name in the search bar under *Search for Books* and then select **Search**.
5. Find the entry that matches the book and then select **Add Item**.

Check the following attributes to find the closest match:

- Title
- Cover image
- Author
- Publish year
- Number of pages
- Publisher (in parentheses next to number of pages)

A green confirmation message appears along the top of the screen.

In the sidebar menu, select **Library** to return to the library. The total book count next to *Scottinez Books* refreshes to show your new total.

Create a new book manually

If you can't find the book by its barcode, ISBN 13 or 10, or title, create a new book manually. Only create a new book if none of the other search methods work.

To create a new book:

1. Open the Libib mobile app and select **Scottinez Books**.
2. Select  and then select **Manual**.
3. Select **Book**.
4. Fill out the Manual Entry form and then select **Submit**. The following table describes each field in the form.

Table 1. Manual Entry form

Field	Description	Required?
Title	The book's name.	Yes
Authors (comma separate)	A comma-separated list of the book's authors.	Yes
Description	The brief description of the book on the inside flap or back cover.	Yes
Price	The book's price.	No
Publisher	The book's publisher as listed on the copyright page or spine.	Yes
Publish Date (YYYY MM DD)	The book's publish date or year as listed on the copyright page.	Yes (year only)
ISBN 13	The book's ISBN 13 code.	No
ISBN 10	The book's ISBN 10 code.	No
Pages	The book's total page count, including back matter (notes, bibliography, or index).	Yes (except for audio books)

A green confirmation message appears along the top of the screen.

Select **Library** to return to the library. The total book count next to *Scottinez Books* refreshes to show your new total.

Edit an existing book

You can edit details of books in your collection.

Edit a book's properties

1. Open the Libib mobile app and select **Scottinez Books**.
2. Select the book that you want to edit.
3. Select  and then select **Edit**.
4. Make the required changes and then select **Save**.

A green confirmation message appears along the top of the screen.

Select **Back** and then select **Back** again to return to the library.

Edit a book's image

1. Open the Libib mobile app and select **Scottinez Books**.
2. Select the book that you want to edit.
3. Select  and then select **Image**.

- Select **Photo Library** to choose a photo from your phone. Give Libib access to view your photos, if asked.
- Select **Camera** to take a new photo. Select **Use Photo** to confirm the photo.

4. Select .

A green confirmation message appears along the top of the screen.

Select **Back** and then select **Back** again to return to the library.

Delete a book

Delete books from Libib as you dispose of them.

To delete a book:

1. Open the Libib mobile app and select **Scottinez Books**.
2. Select the book that you want to remove.
3. Select  and then select **Delete**.
4. Select **Delete** again to confirm.

A green confirmation message appears along the top of the screen.

You're automatically returned to the library. The total book count next to *Scottinez Books* refreshes to show your new total.

Troubleshooting

1. *I can't find the book by barcode, ISBN, or title*

If you can't find a book by barcode, ISBN, or title, you must create the book manually. See [Create a new book manually](#) for instructions.

2. *I scanned a book that already exists in the collection*

When you scan a book that already exists in the collection, select **Done** or **Add another** to avoid adding an extra copy.

3. *I need to adjust the number of copies of a book in the collection*

To adjust the number of copies of a book:

1. Open the Libib mobile app and select **Scottinez Books**.
2. Select the book that you want to edit.
3. Select  and then select **Copies**.
4. Select  and then select **Delete** to confirm.

A green confirmation message appears along the top of the screen.

4. *A book that I scanned has wrong or missing information*

If a book has wrong or missing information, add it to the collection and then edit its details directly. See [Edit an existing book](#) for instructions.
